INFORMATION BOOK - NOTES - SIX FASTEST

These notes are designed to describe the road concerned. It is important to bear in mind that the description of bends etc., are relevant to a myriad of variables, including road width, surface conditions etc. These are not speed notes, they are route notes. They are made at slow speed. Bumps and jumps at rally pace must be treated with your own judgement. It is up to each individual to ascertain his own car/ suspension/tyre/speed capabilities. It is up to each driver to assess the relevance of each feature with those before and after. As these notes are designed for a wide cross-section of drivers in differing cars, it is essential that you bear this in mind. Also, holes, rocks, mud, floods and fallen trees/logs etc. can appear. The onus is on you to check starts/finishes/junctions/chicanes etc. We comply when making the notes with the original information supplied by the organisers, but cannot guarantee on the day of the rally that the set-up will be exactly the same. In signing the indemnity when obtaining these notes you have agreed to the terms therein, accepting that there is no liability attached to the event organisers, or the author, and further that you will not reproduce or copy these notes for use by any other person, or for the use at any other time than the rally signed for. If for any reason you have not signed the indemnity, by dint of using the notes you are deemed to have agreed to the conditions. If you are not happy with this, please return the notes before the rally and apply for a refund. Please remember, copying these notes without permission is theft. Above all, please be reminded that your safety and those whom you may affect by your actions is solely and completely your own responsibility, nobody else's.

Abbreviations

Caution !! **Danger** !!! **Big Danger**

Open - faster than normal Op

< **Opens Tightens** >

Suddn Sudden, comes up quickly

Tight/narrow Neat..Keep it tidy **Tyt** V..Verv \oplus o/s..outside Slightly more open i/s..Inside Slightly tighter Θ DC..Don't Cut ?..Maybe

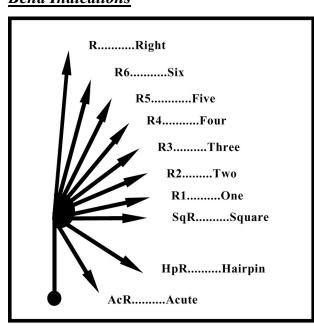

↓ Down Up + And → Into

Linking everything are distances in yards - even numbers up to 100 (40, 60, 80), odd numbers over that (130, 150, 170, 250). Short distances will be \rightarrow (into) or (and) +. Into means that the steering wheel will just about straighten between two corners, + (and) will be longer - 20/30 yards. A line under a number of symbols means that they should be read quickly and together, to let the driver know what is coming up in good time. Also used to emphasise a note. The little boxes in the

left hand margin denote junctions, with the Radio Point above where applicable, the distance to the finish is in brackets

Produced on behalf of Patterson Agency Ltd. PS Please check page numbers before the rally.
